9/12/99
10:30 pm.

Dear Harold and Jil,

Well I am hoping all is reasonably well, gee, I feel silly putting it that way. I am hoping the both of you will be able to receive a visit from me on either Sunday 26th Sept or Sat 25th. I am aware that any plans may be subject to change. I would like to videotape if possible the interview we spoke of. Again, we will, due to time limitations and respect to your health conditions stick to a downsized, scaled back interview. I am not interested in conjecture or myth. I will only work with your total approval, and any subject matter you find disagreeable will be at your discretion to not discuss. I will call you at home to check on the possibility of the dates I have discussed. Harold please respond if you would like to change these dates or terminate the interview totally. I am hoping I am not asking too much. My friendship with you is far more important to me than causing any interruption to you and your wife. I just want to record for posterity your views thirty six years later.

Whether you are aware or not the circus of fools still finds new fodder down in Dallas. There is a supposed "original untouched" Moorman photograph ready to be marketed showing the head shot - Strange, when the original sits in Gary Macks safe, what is this new pristine one? The bizarre parade

of Perry Masons start up at this time every year! I start to get calls from all over asking my opinion on this and that, some of the questions are just so removed from any reality that I give no response. Most of this bullshit originates from "RESEARCHERS" in the Dallas area. The internet is awash in silly J.F.K. information pages. I take no part in this. Dan Moldea, whom I like told me today that the New York Times has an article on K.G.B. admitting misinformation dissemination to researchers for years. Whats to believe ~~now~~ anymore? Do you know Dan Moldea? He has written several investigative pieces - (not on Kennedy). He is a nice fellow!

Also Harold you should see the activity on the collectors level. Pictures, paperwork, govt. memos, personal belongings of J.F.K. Oswald, Ruby, Tippit and a host of others get auctioned off at about this time as 22 Nov. approaches. Quite a zoo! Bob Cochran, a friend of mine just sold a beautiful historical piece for $20,000. It was the second FAIR PLAY FOR CUBA F.P.F.C. card that Oswald had in his wallet signed by V.J. Lee and Lee Harvey himself. It was a commission exhibit in '64. Can you imagine $20,000 for the card? It sold one day later for $24,000 to a right winger somewhere. Bob paid $7500.00 four years ago! Even a blooded motorcycle cops jacket is on the market (B.J. Martin) or was. Last fall (he died of cancer mid eighties) Anyway, the morbid

fascination is human nature I guess! No other event in history has such a circus atmosphere surrounding it! Just like moths attracted to a porch light! The funny thing about these guys is they believe in their own self importance. I actually get calls from people because they have heard that I know you and your wife and that I am someone "IMPORTANT" they are in absolute awe of Harold Weisberg (I am too) I just tell them Harold humors me and I ~~suppose~~ humor Harold by being his newest Perry Mason! I send Harold long poorly written letters that are neither legible or ~~sequitur~~ sequitur in content but I tell them this letter writing gives a Harold a giggle now and then!

Please pardon the penmanship I am very tired and at age forty-two my hand doesn't appear to work very well!

I love you both!

Thomas Michael Weaver.
